Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Herman et al. (USP 5,503,298).

Regarding claim 1, Herman et al. discloses a drug dispenser (1) comprising:

- a drug case (3) ([for containing a plurality of drugs stacked in a vertical direction with a flange directed upward, each of the plurality of drugs being packed in a rectangular package with the flange,] *This is an intended use statement. Therefore, the patentable weight of this statement is considered under the conditions that if a different apparatus is capable of performing the same operation under any conceivable circumstance or scenario it may be considered prior art regardless of whether that apparatus discloses this particular use. The only limitations considered pertinent in an apparatus claim are the structural limitations of the apparatus*),
- and a pushing mechanism (6) [for pushing out the lowermost drug in a horizontal direction (see Figure 1)],

- wherein a guide member (7) [for supporting and guiding the flange of the second drug when the lowermost drug being pushed out is provided in a pushing direction of the drug (see Figure 2)].

Regarding claim 2, Herman et al. disclose the drug dispenser of Claim 1, wherein the guide member (7) is provided on at least any one side of the both sides of the pushing direction of the drug (see Figure 2).

Regarding claim 3, Herman et al. disclose the drug dispenser of Claim 1, wherein the guide member (7) is extended toward the downstream side of the pushing direction of the drug (see Figure 4).

Regarding claim 4, Herman et al. disclose the drug dispenser of Claim 1, wherein the guide member (7) supports and guides the flange of the drug on the upstream side of the pushing direction of the drug (see Figure 4).

NOTE:

Regarding the elements in the previous claims the MPEP states:

§ 2115 [R-2] Material or Article Worked Upon by Apparatus

MATERIAL OR ARTICLE WORKED UPON DOES NOT LIMIT

APPARATUS CLAIMS

“Expressions relating the apparatus to contents thereof during an intended operation are of no significance in determining patentability of the apparatus claim.” Ex parte Thibault, 164 USPQ 666, 667 (Bd. App. 1969). Furthermore, “[i]nclusion of material or

Art Unit: 3651

article worked upon by a structure being claimed does not impart patentability to the claims."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
